**Curtis S. Francisco, CFP®, AIF® Earns Investment Fiduciary Accreditation**

**Jupiter, FL, December 5, 2005** – Curtis Francisco, CFP®, AIF®, President of Asset Advisory Services, has been awarded the ACCREDITED INVESTMENT FIDUCIARY™ designation from the Center for Fiduciary Studies, a nationally recognized training organization for fiduciaries. AIF® designees are trained in investment fiduciary responsibility and portfolio management. This accreditation enables Mr. Francisco to do plan reviews for foundations, endowments, profit sharing plans and defined benefit pension plans.

The Center for Fiduciary Studies is the only national entity to define and substantiate specific investment fiduciary practices. In this post-Enron environment, prospects and clients expect and demand that investment advisors demonstrate that they embrace a higher standard of care. Additionally, pending pension reform legislation actually calls for the investment advisor to demonstrate that the investment advice provided is delivered to a fiduciary standard of care. Holding the AIF® professional designation clearly identifies Mr. Francisco as someone who meets such standards.

Asset Advisory Services is an independent firm founded by Curtis Francisco, CFP®, AIF® in 1981. Francisco was Jupiter's first Certified Financial Planner™ practitioner and serves his clients in numerous areas of financial services and investment products. Mr. Francisco is also a Registered Investment Advisor and Branch Manager of the local office of Commonwealth Financial Network, Member NASD/SIPC, a broker-dealer providing securities sales and service.
