1. ABOUT INVESTOR360®

1.1 What does Investor360° provide?

Investor360° is a Web-based application that contains portfolio information within Overview, Holdings, Activity, Statements, and Confirms pages. A Documents section allows your advisor to share documents with you. It also includes an Administration tab, where you can update your password, name, and security information.

Investor360° also offers an optional account aggregation feature that allows you to consolidate all of your account information, regardless of institution, in one place. If your advisor chooses to give you access to this functionality, you will be able to collect all of your account information—including data from bank, credit card, investment, mortgage, insurance, and loan accounts—and view it all through Investor360°.

1.2 Security

Commonwealth uses industry-standard, 128-bit encryption on all websites that contain personal information. This means that complete social security numbers are not displayed.

All clients must reset their passwords upon their first entry into Investor360°. Passwords must be at least eight characters long and must contain at least one number.

Please note:

- Your advisor must first create your login and set up your account. Without the login, you cannot access Investor360°.
- You must have Adobe Reader or Adobe Acrobat installed on your computer to view and print your statements.

2. LOGGING IN TO INVESTOR360°

Your advisor will create a login ID for you and give you a temporary password. (All of your Commonwealth accounts can be linked to this ID.)

1. Go to the Investor360° website that your advisor has given you. Next, enter the login ID and password that he or she has given you. Click **Submit**.

 - e. You understand that each participating national securities exchange or association asserts a proprietary interest in all market data it furnishes to parties that disseminate the data. You also understand that neither any participating national securities exchange or association, nor any supplier of market data, guarantees the timeliness, sequence, accuracy, or completeness of market data or any other market information or messages disseminated by any party. No disseminating party shall be liable in any way, and you agree to indemnify and hold harmless each such party, for (a) any inaccuracy, error, or delay to you in, or omission of, (i) any such data, information, or message and/or (ii) the transmission or delivery of any such data, information, or message; and (b) any loss or damage arising from or occasioned by (i) any such inaccuracy, error, delay, or omission, (ii) nonperformance, and/or (iii) interruption of any such data, information, or message, due either to any act or omission not constituting gross negligence or willful misconduct by any disseminating party or to any "force majeure" (e.g., flood, extraordinary weather conditions, earthquake or other so-called "act of God," fire, war, insurrection, riot, labor dispute, accident, action of government, telecommunications or power failure, equipment or software malfunction), or any other cause beyond the reasonable control of any disseminating party.
 - f. Company does not guarantee the accuracy, completeness, or timeliness of, or otherwise endorse any analyses or recommendations, including those in the Product, hereby give investment advice, or advocate the purchase or sale of any security.
7. Although Company makes available to you information through this Product (which may or may not assist you in your investment decisions), you agree that all transactions are at your sole risk and have not been solicited by Company nor any of its information providers. Further, you understand that neither Company nor its agents provide tax or legal advice for any specific transactions you effect with the Product.
8. The Product may contain technical and other errors and limitations and is provided "as is" without warranty of any kind. Some states do not allow the exclusion or limitation of liability for consequential or incidental damages, so the above restriction may not apply to you.
10. Should you become aware of any instance whereby your ID and Password information allows you access to account information not belonging to you, you will immediately notify the Company.

5. OVERVIEW TAB

When you log in to Investor360®, as referenced in chapter 3, you will be in the Overview tab. (As you can see in the illustration below, there are three principal tabs: the Portfolio tab, which includes the Overview, Holdings, Activity, Statements, and Account Profile tabs; the Documents tab, and the Administration tab.)

The Overview tab, contains all of the accounts in your household. You can view the data in a summary chart or as a quarterly breakdown. 1. The Accounts section displays the general details of your accounts: Account (as of the prior date), Net Worth, and Cash Available. Net Worth shows the current net worth of the account, and Cash Available displays the current available cash in the account. 6. HOLDINGS TAB

The Holdings tab lists your account investment activity over time. This includes buys, sells, dividends, and adjustments. You can directly add outside assets into Investor360®. Just as in the Overview tab, you can use the Account dropdown menu to view one or all of your accounts.

The screenshot displays the 'Holdings' tab in the Investor360 client interface. The interface includes a navigation bar with 'PORTFOLIO', 'DOCUMENTS', and 'ADMINISTRATION' tabs. Below this, there are sub-tabs for 'Overview', 'Holdings', 'Activity', 'Statements', and 'Account Profile'. The 'Holdings' sub-tab is active, showing a detailed list of investment holdings. The holdings are organized into three main sections: 'ACCOUNTS (As of 11/10/07)', 'Commonwealth - Scudder SE2', and 'ADDITIONAL ASSETS'. Each section contains a table with columns for 'Description', 'Symbol', 'Quantity/Price', 'Value', '%', 'Cost Basis', 'Unrealized GL', and '% GL'. The 'ADDITIONAL ASSETS' section shows a total value of \$165,000.00. At the bottom, a summary row indicates a 'TOTAL NET WORTH' of \$211,136.13. A disclaimer is provided at the very bottom of the page.

8. ADDING AN ADDITIONAL ASSET

In essence, what you are doing is linking an existing outside account to Investor360° so that you can see a more complete picture of your entire financial portfolio—including accounts held elsewhere—and allow your advisor to serve you better as a more informed financial planner.

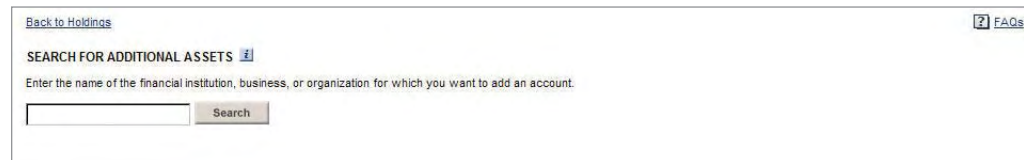

Please note: You must have existing online access (i.e., you can access the account online with a username and password) to an account in order to link the account to Investor360.° If you do not have online access to an account already set up, go to the institution’s website (e.g., www.bankofamerica.com) and follow the instructions to set up your account online.

1. Click **Add/Edit Additional Assets** on the Holdings tab.

Please note: You must first activate this feature before you can use it.

2. The Search for Additional Assets window opens. This is your home base for account aggregation—adding and managing aggregated accounts takes place from here. Enter in the name of your financial institution; then click **Search**. The search area is not case-sensitive. Please verify the name before you click the Search button.

- The search results are displayed in the search area. Select the correct institution from the search list and click **Continue**.

1. The date range covers the last 12 months as the default, but you can change the range to whatever period you wish. Click in the **Date Range** box at the left to add the first date; then, click in the box to its right to add the second time frame. Click **Go**.

2. Beneath the Date Range is a navigation bar that allows you to scroll through all of the pages for the household.

4. The Go to Page area shows the number of the page where you are working and the number of pages available for view. To move to a specific page, enter the page number and click **Go**.
5. You can change the number of rows displayed in the window. (The default is 25.) Click in the box next to Rows per Page and delete what is there. Next, enter the number of rows you want to show and click **Go**. The new number of rows will be displayed.
6. The final section allows you to see all of the pages in one window. Click **Show All Pages** . (You may have to scroll down the page to see all of the data.) The Go to Page now displays page 1 of 1, and Rows per Page displays the number of rows in the window.

7. The data is organized under six column names: Date, Account, Entry Type, Description, Quality/Price, and Amount. Five of the six column names are underlined because they are hyperlinks. This allows you to sort the data by clicking on the column header. (The Quality/Price header is not underlined and cannot be used to sort.) When you click on the column header, an upward-pointing triangle appears; this means that the account data has been sorted in ascending order. If the triangle points downward, the account data has been sorted in descending order.

1. To change your password or security questions, click on the **Administration** tab.

The screenshot shows the 'ADMINISTRATION' tab selected in a web interface. Below the navigation tabs, there are three sections: 'Personal Information', 'Secret Questions', and a 'Submit' button. The 'Personal Information' section includes fields for Username (test11), First Name (test), Last Name (test), Password (masked with 8 dots), and Confirm Password (masked with 8 dots). A note next to the Password field states '(At least 8 characters, including 1 number)'. The 'Secret Questions' section includes two questions: 'Secret Question #1:*' with a dropdown menu set to 'City of birth' and an empty 'Answer #1:*' field; and 'Secret Question #2:*' with a dropdown menu set to 'Your high school mascot' and an empty 'Answer #2:*' field. A legend indicates '*Required Field'. At the bottom left is a link for 'Privacy Policy' and at the bottom right is a 'Submit' button.

2. In the Password box, delete the temporary password, and enter a new password. Then, in the Confirm Password box, delete the password, and enter your new password. The passwords must match for the change to be processed. This is for security reasons.
3. If you wish, you can change your security questions. Make your selections and then enter the answers. When you are ready, click **Submit**.
